Re: Advisory Opinion Request
For C00428664
Green Senatorial Campaign Committee

RECEIVED
FEDERAL ELECTION
COMMISSION
OFFICE OF GENERAL
COUNSEL
2006 NOV 20 P 11:11

Dear General Counsel and Members of the Federal Election Commission,

On June 18, 2006, the Green National Committee – the national committee of the Green Party of the United States (“GPUS”), as recognized under FEC Advisory Opinion 2001-13 – voted to establish a National Green Party Senatorial Campaign Committee.¹ On July 23, 2006, the Green National Committee elected seven people to comprise this committee.² On July 31, 2006, the committee met by teleconference, and began conducting business both on-line and via teleconference. The committee chose “Green Senatorial Campaign Committee” (“GSCC”) as its working name.

On September 8, 2006, Committee Treasurer Dean Myerson filed the GSCC’s Statement of Organization with the Secretary of the Senate.

¹ See <http://gp.org/cgi-bin/vote/propdetail?pid=223> for the resolution creating the Green Senatorial Campaign Committee and establishing original bylaws. See <http://gp.org/cgi-bin/vote/propresult?pid=223> for the vote results on the resolution creating the committee.

² See <http://gp.org/cgi-bin/vote/irvresult?pid=237> for the results of the election of the GSCC.

On October 27, 2006, Assistant Treasurer Eric Oines opened a checking account for the GSCC at State Farm Bank and deposited \$1,452 in contributions, qualifying the GSCC as a "political committee" under the definition of 2 U.S.C. SS 431(4).

On September 20, 2006, the GSCC voted unanimously to seek recognition from the FEC as the national senate campaign committee of the Green Party. This letter constitutes an Advisory Opinion Request seeking such recognition.

Included with this Advisory Opinion Request is an affidavit from Holly Hart, Secretary of the Green Party of the United States, on behalf of GPUS, supporting this AOR.

The Green Senatorial Campaign Committee requests that the Federal Election Commission find that the GSCC is indeed the national senate campaign committee of the Green Party, for purposes of 2 U.S.C. SS 434(e)(1) and SS 441a, and 11 C.F.R. SS 110.1(c), SS 110.2(c)(2)(iii), and SS 110.3(b), and that this committee is therefore eligible for the increased contribution limits to this committee under 11 C.F.R. SS 110.1(c) and 11 C.F.R. SS 110.2(c), the increased contribution limits by this committee to senate candidates under 11 C.F.R. SS 110.3(b)(2)(ii) and 11 C.F.R. SS 110.2(e), and the ability to engage in coordinated expenditures to benefit federal candidates under 2 U.S.C. SS 441a and 11 C.F.R. SS 109.32(b) and SS 109.33 under the coordinated expenditure limits allowed to GPUS and all state Green parties.

We contend that GPUS' status as the national committee of the Green Party entitles it to form a House and Senate campaign committee, and that its recognition of a qualified federal committee as its House or Senate campaign committee should be sufficient to qualify that committee for House or Senate campaign committee status, and request the FEC's Opinion regarding this contention.

Additionally, the GSCC has engaged in activity intended to meet the types of thresholds that have traditionally qualified committees for national committee status.

The committee proceeded to raise additional funds and send contributions to several of the senatorial candidates listed in this Advisory Opinion Request, including each of the candidates who has qualified as a "federal candidate" under the definition of 2 U.S.C. SS 431(2).³

The following eleven candidates were on the November 7, 2006 ballot as the U.S. Senate nominee of a state party affiliated with the Green Party of the United States, and each has submitted an affidavit in support of this Advisory Opinion Request:

Todd Chretien, Green Party of California

³ The campaigns of Todd Chretien, Kevin Zeese, David Sole, Michael Cavlan, Lydia Lewis, Howie Hawkins, Aaron Dixon, Rae Vogeler, and Brian Moore have each raised in excess of \$5000. Each has received a \$201 contribution from the GSCC.

Ralph Ferrucci, Green Party of Connecticut
Kevin Zeese, Green Party of Maryland
David Sole, Green Party of Michigan
Michael Cavlan, Green Party of Minnesota
Lydia Lewis, Progressive Party of Missouri
Howie Hawkins, Green Party of New York State
Julian Hatch, Desert Green Party of Utah
Craig Hill, Green Party of Vermont
Aaron Dixon, Green Party of Washington State
Rae Vogeler, Green Party of Wisconsin

This list contains all 2006 U.S. Senate nominees who were on the ballot of a state party affiliated with GPUS.

Additionally, the following two U.S. Senate candidates have received the sole endorsement of the GPUS-affiliated party in their state, are on the ballot as Independents (with no statewide Green ballot line), and have submitted affidavits supporting this Advisory Opinion Request:

Brian Moore, endorsee of the Green Party of Florida
Chris Lugo, endorsee of the Green Party of Tennessee

At least nine of these candidates have raised in excess of \$5000, thus qualifying as federal candidates under the definition of 2 U.S.C. SS 431(2).

The contributions the GSCC made to these candidates were intended, in part, to support ballot access efforts, voter registration, voter identification, and getting out the vote, as detailed later in this letter, and in the various affidavits.

Additionally, seven past U.S. Senate nominees of state parties affiliated with GPUS, or its predecessor, the Association of State Green Parties, who have qualified as federal candidates and been on the ballot, have submitted affidavits supporting this AOR.⁴ They are:

Jim Sykes, Green Party of Alaska (2004)
David McReynolds, Green Party of New York State (2004)
Teresa Keane, Pacific Green Party of Oregon (2004)
Ted Glick, Green Party of New Jersey (2002)
Medea Benjamin, Green Party of California (2000)
Mark Dunau, Green Party of New York State (2000)
Joel Kovel, Green Party of New York State (1998)

⁴ The Association of State Green Parties voted to change its name to the Green Party of the United States in 2001, before applying for and receiving national committee status. See AO 2001-13.

In AO 2001-13, the Commission considered 16 federal candidates in 8 states (in addition to the presidential and vice presidential candidates) over two federal election cycles, to be a sufficient number of candidates for GPUS to merit national committee status. The number of current "federal candidate" affidavits included with this Advisory Opinion Request exceeds the number of states that were considered as sufficient federal campaign activity in AO 2001-13, and compares even more favorably to AO 2001-13 in percentage of states where there are applicable races, since only 33 states had senate races in 2006. Furthermore, with 9 senate candidates in 33 races, the number of 2006 "federal candidate" affidavits included with this AOR compares very favorably to the percentage of applicable federal races the Commission considered to be sufficient federal campaign activity in any previous advisory opinion.

Additionally, the Chretien, Ferrucci, Zeese, and Hawkins campaigns have each conducted voter registration drives in their respective states, to register new voters and register them as "Green".

All the candidates have engaged in voter identification and get-out-the-vote activity.

GSCC members Dave Jette and Brent White each volunteered many hours to help the Aaron Dixon campaign with ballot access petitioning, voter registration, voter identification, and getting out the vote. GSCC member Eric Oines volunteered many hours to help the Michael Cavlan campaign with voter registration, voter identification, and getting out the vote. GSCC member Roger Snyder volunteered many hours to help the Howie Hawkins campaign with ballot access petitioning, voter registration, voter identification, and getting out the vote. Committee members Dave Jette and Anita Wessling created our website at www.GreenSCC.org to support our Senate candidates.

Rae Vogeler's 2% of the vote in Wisconsin qualified the Green Party of Wisconsin for ongoing ballot access.⁵

Also, note that AO 1980-131 mentions that newer parties may have national congressional campaign committees.

The Green Senatorial Campaign Committee has complied with the contribution and expenditure limits that apply to standard political committees, and limited its contributions solely to senatorial candidates. It will not attempt to use higher income or disbursement limits associated with a national party campaign committee until and unless it receives a positive response in an Advisory Opinion.

We request that if the Commission finds the activities of the GSCC to be insufficient for attaining the status of national Senate campaign committee, that the Commission lay out

⁵ Wisconsin Statutes, Chapter 5, Section 62 gives political parties that get at least 1% of the vote in any statewide office a place on the ballot in the next general election. See <http://nxt.legis.state.wi.us/nxt/gateway.dll?f=templates&fn=default.htm&vid=WI:Default&d=stats&jd=top>

clear activity thresholds that would entitle a political committee such as ours to be granted such status.

We thank you for your consideration in this matter and look forward to providing any additional information you may need.

Sincerely,

Dean Myerson,
Treasurer, Green Senatorial Campaign Committee

September 29, 2006,

Dear Federal Election Commissioners,

I, Mark Dunau, was the Green Party of NY's 2000 nominee for United States Senator, and was on the state's November 2000 ballot on the "Green" ballot line for that position. I raised and spent in excess of \$5,000 on my campaign.

I hereby notify you that I support the Advisory Opinion Request by the Green Senatorial Campaign Committee seeking recognition as the senate campaign committee (a national party committee) of the Green Party of the United States.

Thank you for your consideration.

Mark Dunau

Approved Minutes of GSCC conference call
August 9, 2006

On call: All seven voting members (Teresa Keane, Anita Wessling, Eric Oines, Brent White, Roger Snyder, Daryl Northrop, and Dave Jette), and Treasurer Dean Myerson, all on time!

**Brent nominated Teresa for Chair. Dave seconded. Consensus.
Eric nominated Anita Vice Chair. Daryl seconded. Consensus.
Anita nominated Eric for Assistant Treasurer. Teresa seconded. Consensus.**

[Dean had previously been elected Treasurer, and Brent had been elected Secretary, both unanimously, 7-0, via email.]

Discussion on filings with the Federal Election Commission:

Dean: We do not have to file the Statement of Organization until we have raised \$5000, and then we have 10 days to file. Any type of committee uses Form 1. All questions and concerns to and from FEC should go to Dean.

We should use the limit for PACs while the Advisory Opinion Request is in process. Filing the AOR soon will give us time to meet additional activity thresholds cited by FEC, during the 2006 election season, if they turn the AOR down the first time.

Dean returns on September 3. He will file the Statement of Organization when he gets back. Consensus to approve him filing the SoO.

Dean will include a letter informing the FEC of our intent to submit and approximate date for submission of AOR with the SoO. Eric will be point of contact for collecting affidavits.

Brent will send out a re-draft of AOR so Dean can look it over and the committee can discuss it on the next call.

Pledges should be sent to Eric for him to deposit.

Discussion on bank account:

Eric: Dean has started to set up an account in DC through State Farm (since it operates in both DC and MN), and has sent the signature card to Eric.

Dean: State Farm needs a founding document from the committee. Eric needs to find out what document they need. Minimum balance without a fee is probably \$3000.

Discussion on fundraising:

Dean: GPUS is unlikely to want to share lists or resources at this point. The most likely contributors are those who have maxed out to senate candidates.

Some candidates are not allowed (by their state party) to receive contributions from PACs, but our group is considered a party committee.

Candidates who have some max donors should be willing to refer these donors to the GSCC.

Contacting candidates:

Eric will contact Mike Cavlan.

Dave will contact Aaron Dixon.

Brent will contact Howie Hawkins.

Teresa will contact Todd Chretien.

Brent will contact Ralph Ferrucci.

Teresa will contact Kevin Zeese.

Brent will contact Carl Romanelli.

Eric will contact Rae Vogeler.

Brent will contact Chris Lugo.

Teresa will contact Julian Hatch.

Teresa and Dean will contact Joyce Robinson-Paul.

Target date to get affidavits into Eric's hands: Labor Day
Eric will send all the affidavits out. Brent will send contact list for senate campaigns to the committee.

Letterhead: Use a modification of GPUS's. Consensus.

Website:

Daryl: We can customize the template from GPUS.

Dean to Eric: We should set up a proper merchant account for online fundraising.

Anita will try to work with template.

Anita will ask Holly Hart to submit affidavit on behalf of GPUS, and Daryl can help out with getting that affidavit.

Next conference call: Same time next week.

9:30 pm EDT / 8:30 pm CDT / 6:30 pm PDT

Bylaws of the National Green Party Senatorial Campaign Committee

I. Purpose:

The National Green Party Senatorial Campaign Committee (NGPSCC) exists to promote the campaigns of Green Party candidates running for the United States Senate, to support ballot access drives to enable such campaigns, and to support other party-building activities.

II. Composition:

A. The voting membership of the NGPSCC shall consist of

(i) All members of the United States Senate who were elected to that office as nominees of state parties affiliated with the Green Party of the United States (GPUS); and

(ii) Seven additional members, nominated by members of the Green National Committee (GNC) of GPUS, and elected by the GNC, using the standard rules for proportional elections set by the GNC. The committee members elected by the GNC shall serve until their successors are elected, but in no case may serve more than fourteen months without standing for re-election. It will be the responsibility of the NGPSCC to call for elections and of the Steering Committee of GPUS to conduct such elections.

B. The Treasurer shall be appointed by the NGPSCC, and serve at the pleasure of the NGPSCC. If the Treasurer is not an elected member of the NGPSCC, then the Treasurer shall not have a vote.

C. Vacancies on the NGPSCC shall be filled through nomination and proportional election by the GNC.

D. Any person who is a member of the National Green Party House Campaign Committee or of the Steering Committee of GPUS may not simultaneously be a member of the NGPSCC.

III. Conduct of business:

A. A simple majority of the current membership is required for meeting process motions and removal of the Treasurer.

B. A 2/3 majority of the current membership is required to make all other decisions.

IV. Amendments to these bylaws:

Amendments to these bylaws may be proposed by a two-thirds majority of the NGPSCC. Such proposed bylaw amendments must then be ratified by a simple majority of the GNC in order to take effect.

Approved Minutes of GSCC Conference Call
September 20, 2006

On call: Teresa Keane (Chair), Anita Wessling (Vice Chair), Brent White (Secretary), Eric Oines (Assistant Treasurer), Dave Jette

Excused absences: Roger Snyder, Dean Myerson (non-voting Treasurer)

Consensus to approve agenda as presented by Teresa, with additions by Brent and Anita.

Consensus to approve Minutes of September 13, 2006.

Brent discussed steps in the AOR approval process.

Anita updated us on gender equity proposals. Anita will continue talking with Holly about the National Women's Caucus proposal, and about the process for amending the GSCC's bylaws.

Dave had previously submitted a report on his progress and ideas on the website. It contained six points concerning the website content, and we approved these and added a seventh point, to include the GSCC bylaws. Anita suggested, for the future, having a page on helping Senate candidates get started.

Fundraising: No more checks, but Eric has some leads. Anita and others will make pitches on Green lists, following up on the press release.

Eric says the bank still needs a founding document. Eric, Brent, and others will continue working on figuring out what we need as a founding document that the bank will find acceptable.

Dave asked that the next call be a half hour earlier (only for next week). We decided to stick with 6:30.

Brent moved that the GSCC submit an Advisory Opinion Request to the Federal Election Commission seeking recognition as the national senatorial campaign committee of the Green Party, and all the additional powers that come with being a national senatorial campaign committee. Dave seconded. The proposal passed 5-0. (Roger added his vote in favor of the proposal over email, making it unanimous - 6-0.)

Adjournment by consensus.

Next call:

Wednesday, September 27, 2006

9:30 pm EDT / 8:30 pm CDT / 6:30 pm PDT

Green Party Documents

Official Bylaws of the Green Party of the United States

Originally Approved January 29, 2002

Updated:

April 19, 2004

Article VI updated January 05, 2005

Updated text with CC to NC and GPUS conversions September 3, 2005

Article V updated May 08, 2006

ARTICLE I. PURPOSE

1. Assist in the development of State Green Parties
2. Create a legally structured national Green Party Federation

ARTICLE II. MEMBERSHIP AND THE NATIONAL COMMITTEE

1. Definitions

The term "state" as used in these bylaws shall refer to any state, commonwealth, district or territory entitled to voting representation or non-voting delegate status in the United States House of Representatives.

The term "underrepresented group" as used in these bylaws shall refer to any grouping of Greens, not explicitly ideological in nature, that has historically failed to attain adequate access to power

in society at-large and/or within the Green movement, as determined by the National Committee.

2. National Committee

The National Committee of the Green Party of the United States shall consist of the representatives of state parties and accredited caucuses of underrepresented groups.

The National Committee shall be the final decision-making body of the Green Party of the United States and shall be responsible for approving a deliberative platform process of discussion, debate, and decision-making at the local and state levels leading to a national platform vote by the delegates at the presidential nominating convention.

The presidential nominating convention of the Green Party is the delegated decision-making body responsible for nominating the national Green Party's presidential and vice presidential candidates and approving the Green Party's national platform.

Meeting of the National Committee and the nominating convention may be attended by Greens who are not voting representatives or delegates.

Each member state party shall have one vote on the National Committee for every four Congressional Districts or major fraction thereof into which the state is divided. Regardless, each state party shall have at least two votes. State parties shall make a good faith effort, where reasonable, to have delegates to the National Committee elected by clusters of local Green groups.

For the purpose of tallying its number of delegates to the Green National Committee a state party may include only Congressional Districts in which there is an organized Green Party Local.

Criteria for an organized Green Party Local shall consist of:

- Recognition by the member state Green Party Bylaws and/or a constitution Adoption of the 10 Key Values and a mission statement and/or platform that demonstrates this commitment.
- The member state Green Party shall be responsible for maintaining a current record and validation of active local affiliates, to be provided to the GP-US on request for credentialing purposes.
- *No delegate to the National Committee may cast more than two of that state's votes. (This clause will be eliminated after the 2004 general election, reverting back to one vote per delegate, if no further action is taken).

This rule will go into effect January, 2002.

This entire section of the bylaws will be reviewed after the next meeting of the National Committee.

3. Sustaining Membership

Individuals may become sustaining members of the Green Party of the United States by paying dues set by the National Committee on a sliding scale based on ability to pay. Members of state parties shall be actively encouraged to become sustaining members of the Green Party of the United States. Sustaining members shall receive the Association's publications and other benefits as determined by the National Committee.

ARTICLE III. COMMITTEES

"The National Committee of the Green Party of the United States shall establish standing committees and may create other committees according to need. The NC shall cause to be produced, and then approve a document for each committee including the purpose, duties and general charge of the committee, as a part of the process of creating a committee.

The Steering Committee shall be responsible for oversight for all committees and ensure that the NC is kept informed about the work of the committees.

Delegates to the NC shall automatically be eligible to serve on committees by virtue of their position. Other committee members shall be members of a state green party and have written permission from their state party to serve. Permission shall be submitted by the NC delegates or State Party co-chairs from the various states to the co-chairs of the relevant committee, and can be submitted on paper or via email. No state shall have more than three members per committee without a waiver from the Steering Committee. No committee shall have fewer than five states represented.

There shall be three categories of activity for GPUS committees:

1. **MEMBERS** - Committee Membership shall be defined as being a voting member of a committee who may take part in all decision making. Committee members shall be selected by their committees according to individual committee P&Ps. All committee members shall be approved by their respective state parties according to written, democratically derived state party rules that ensure full and open due process.
2. **ADVISORS** - It shall be at the discretion of committees to select advisors. Advisor status shall be determined by individual committees in their P&Ps. Anyone may serve as a committee advisor. Advisors shall enjoy limited participation in committee deliberations as determined by committees' written P&Ps. Advisors shall not be voting members of a committee, shall not formally introduce proposals and shall not represent either the committee or the party. Advisors shall serve one-year terms and will be eligible for re-election. State parties shall be free to express objections to committees regarding specific advisors. Such objections shall be considered by committee members in their deliberations.
3. **OBSERVERS** - Committee approved observers may monitor the listserv activity of a committee but cannot participate in discussions or votes. Observers must be approved by

committees according to their P&P documents.

Furthermore, committees may communicate with individual Greens on an as needed basis on specific matters of mutual import.

All committees shall:

- 1) develop written rules, policies and procedure (RP&P) documents which must be approved by the National Committee.
 - 2) use consensus-seeking procedure with backup voting for all decision making, and codify the procedure in their RP&Ps.
 - 3) when voting, vote by state with each state casting one vote. The NC or the SC may, in their reviews of the work of a committee, allow a committee to waive the one state, one vote rule and replace it with a one member, one vote standard.
 - 4) codify RP&Ps used to conduct general committee business and, when appropriate, codify rules for decision making via conference calls, email, and/or in-person meetings.
 - 5) report to the NC on a regular basis and set up a schedule for written reporting, with monthly reports being the standard unless otherwise approved by the NC.
 - 6) develop policies and procedures by which minority opinions on committee business that relate to the internal workings of the Green Party may be conveyed to the NC.
 - 7) have two co-chairs unless directed to have a different number by the NC. Gender balance and co-chairs from different states shall be the norm, though under extraordinary circumstances committees may choose another arrangement.
 - 8) detail all non-co-chair leadership position (e.g. secretary, coordinators etc.) in the committee's RP&P document.
 - 9) conduct elections for leadership slots using preference voting and codify election procedures in their RP&P document.
 - 10) participate in a biannual review of committee RP&Ps conducted by the BRPP, which shall report to the NC on each committee's procedures.
 - 11) develop and make available to all members of the committee a packet including all rules, policies and procedures and provide other training and orientation, as appropriate, for new members. This material shall also be available on the committee website.
 - 12) set up guidelines for member participation, with an emphasis on ensuring participation as a requirement of membership and/or participation in consensus decision making or quorum voting.
-

ARTICLE IV. THE STEERING COMMITTEE

The Steering Committee (SC) of the Green Party of the United States shall be composed of nine members: seven co-chairs, a Secretary, and a Treasurer. Co-chairs shall be selected from and elected by the National Committee (NC) of the Green Party of the United States for terms of two years, with a limit of two consecutive terms.

The secretary and the treasurer shall be drawn from the membership of the affiliated state Green Parties and shall serve two year terms without term limits.

The SC shall coordinate the activities of the standing committees and ad hoc committees that may be formed.

Figure 1: ORGANIZATION CHART (doc)

As seen in Figure 1, the SC shall organize using a "portfolio" approach, via which individual designated members of the SC shall coordinate various natural groupings of GPUS Committees. As new committees are added, the SC shall decide which portfolio they naturally belong in. Input from the co-chairs of the new committee will be solicited.

Following each year's SC elections the SC shall organize with all but the secretary, the treasurer and two co- chairs coordinating "portfolio" groups of committees. The remaining two co-chairs shall be utilized at the pleasure of the SC. These two co-chairs may serve as coordinating overseers of the entire Steering Committee (as detailed in Figure 1), may directly assist a portfolio-assigned SC member in their oversight of groupings of committees or the SC may take any alternative approach.

In addition, although the recommended five portfolio structure does not include portfolio assignments for Secretary and Treasurer, this shall not preclude assignment(s) of portfolios to these two SC positions if, at the time of organization or reorganization, the SC feels it is beneficial to assign certain committees for portfolio coordination to the Secretary and Treasurer.

Grouping of committees shall be determined at the pleasure of the SC as circumstances dictate, using the following groupings as a template for natural groupings.

1. Internal Coordinator:
 1. Personnel Committee
 2. Accreditation Committee
 3. Bylaw, Rules, Policies and Procedures (BRPP)
 4. Communications Committee
 5. Event Planning Committee
-

-
2. Outreach Coordinator
 1. Media Committee
 2. Green Pages
 3. Merchandise Committee
 3. Electoral Coordinator
 1. Coordinated Campaign Committee (CCC)
 2. Office Holder network
 3. Presidential Exploratory Committee
 4. Policy Group Coordinator
 1. Platform Committee
 2. International Committee
 3. Diversity Committee
 5. Finance Coordinator
 1. Fundraising Committee
 2. Finance Committee

Although consensus decision making on the yearly organizational structure of the SC is preferable, the SC may if necessary, by 2/3 vote, initiate a different organizational structure at the time of each yearly post-election organization. The SC may also alter the organizational scheme at any time by consensus, or 2/3 vote if consensus is not achieved.

Responsibilities of the portfolio-holding co-chairs shall include:

- 1) Maintenance of communications with committee co-chairs and, when applicable, other committee designees regarding tasking of the committee, receiving work product and assuring quality and accuracy of work product.
- 2) Eliciting and receiving written reports from committees for distribution to the NC.
- 3) Assuring smooth and efficient functioning of committees by working with committee co-chairs and members.
- 4) Tracking and participating in day-to-day committee activities via listservs and meetings.
- 5) Facilitating work of the committee co-chairs, and communications with, the rest of the SC, NC and other committees.
- 6) Informing the SC of activities and carrying out directive of the SC as they affect the committees in the co-chair's portfolio.
- 7) Carrying out all directives from the NC and or SC, as may be received from time to time.
- 8) Assuring compliance with all internal Committee Policies and Procedures.

ARTICLE V. VOTING RULES

The National Committee shall strive for consensus in decision making. If consensus is not possible, decision shall be passed by majority vote with the required presens quorum and the required consens quorum.

Presens quorum: In order for a decision to pass, at least one delegate from each of two-thirds of the states must be present.

A delegate is "present" when:

- (physical meeting:) he or she is physically at the location (in the room) where the vote is taken at the time the vote is taken; or
- (phone or web conference:) he or she is connected live to all other participants at the time the vote is taken; or
- (email voting:) he or she submits to the floor manger within the voting period a vote or an abstention.

Consens quorum: In order for a decision on rules, by-laws, and platform issues to pass, a two-thirds (2/3) majority of all votes cast is required. For all other decision, a simple majority (more than 50%) of all votes cast is required. A majority can be reached in a run-off vote or by the use of instant-run-off procedures.

Abstentions are not "votes" for purpose of this sections; therefore an abstention shall count towards the presens quorum, but shall be disregarded for purposes of the consens quorum.

For proposals that provide options other than "yes" and "no," all delegates shall be given the additional option of casting a vote for "none of the above." "None of the above" cast by a delegate shall be a "vote" for purposes of this section.

ARTICLE VI. SELECTION, ELECTION, AND REMOVAL OF OFFICERS

A. Nomination

At least two months before a national Green Party gathering, the Secretary of the GPUS shall ask members of the National Committee for nominations for the various offices. One month shall be given for all nominations to be submitted. Once all the nominations have been received by the secretary, candidates shall submit a short biography online for all delegates to read at least two weeks before the convening of the next Green Party gathering. Nominations will reopen at a specified part of the Agenda at the Annual National Committee Meeting. The official nomination and announcement of candidates and the elections will be held on separate days during the Green Party annual meeting.

B. Vacancies

Any vacancy in the offices of co-chair, treasurer or secretary shall cause the SC to call for an on

line election to be held immediately upon confirmation of the vacancy, to be completed within six weeks of the call for election, with a nomination period of three weeks to be followed by a two-week discussion period and a one-week vote.

C. Method of Election

SC co-chairs shall be elected using choice voting, with a fractional Droop threshold (one divided by the number of seats to be filled plus one: $1/(seats+1)$) and fractional transfers. A candidate must pass the Droop threshold in order to be elected. The secretary and treasurer shall be elected using separate IRV elections.

D. Recall

1. A proposal to recall a member of the Steering Committee may only be brought forward by delegates at least equal in number to one-fifth of the number of recognized National Committee delegates, with at least one-fifth of the total number of GPUS-accredited state parties and caucuses each represented by at least one delegate. The proposal may include as a background section a formal grievance upon which the recall is being pursued.
2. Any proposal introduced to recall more than one Steering Committee member will be divided for voting purposes into separate proposals such that there will be a separate vote for each person potentially subject to recall.
3. The proposal shall be allotted three weeks for discussion and one week for voting. Discussion shall begin within one week of the Steering Committee confirming that the proposal has requisite support. The vote will be conducted online, even if a national meeting falls within the specified window. Quorum shall be two-thirds of accredited state parties and caucuses, and the threshold for recall shall be two-thirds.
4. If the NC votes to recall one or more Steering Committee members, the remaining SC members shall declare a vacancy or vacancies in accordance with the terms of this article.
5. If the NC votes not to recall a Steering Committee member, the individuals who brought the recall proposal forward may not bring new recall proceedings against the same Steering Committee member until 90 days after the completion of the aforementioned recall vote.

ARTICLE VII. ETHICAL STANDARDS

The Green Party accepts that it cannot order the internal politics of its member states. Even so, the Green Party does have a vested interest in ensuring that the internal politics of the Green Parties of the member states meet the highest ethical standards and adhere to Green Values. The Green Party therefore urges member states to:

1. In theory and practice commit to having a membership and leadership reflective of the diversity of the human population within their own states.
-

2. Commit to opposing racism, sexism, ageism, classism, discrimination against the differently-abled, and other forms of prejudice within the State Green Party and in the larger society.

The Green Party recognizes that winner-take-all/first-past-the-post electoral practices serve to maintain an outdated power structure and prevent members of minority groups from having an adequate impact on policy decisions or serving in leadership position.

Therefore the Green Party urges member states to:

1. Use proportional representation, as organizational capability develops, to elect their internal leadership and their delegates to the Green Party and/or Green conventions.

The Green Party recognizes that there are a multiplicity of proportional representation voting systems. As long as the form employed is fair, honest, and does honor the principles that encourage the participation that hold minority viewpoints, are members of minority groups, or are from the various geographic regions of the state, the Green Party shall not discriminate against any of the forms chosen by state parties when examining the applications for membership of newly-joining states or in its dealings with the current membership.
